Bovis was appointed as Project Manager for the building of a new Headquarters for this publicly-owned shipping company. The Project (20.000 m²) consisted of two singular buildings with 5 floors each, both with tinted curtain walls in line with the company's corporate colours. The buildings are built over a 10,000 m², 3-level underground car park. The project was completed in a total of 14 months, and with a cost savings of 8,20% under the established budget.
